Reading Aloud to Improve the Vocabulary and Comprehension Skills of English Language Learners

Reading is a complex process, which requires decoding, vocabulary, fluency and comprehension.

According to research, a core element in literacy development for ELL is the rewards of reading, and develops the listener's interest in books and desire to be a reader.

In this webinar, you will learn instructional strategies to help adult ELL Emergent Readers read aloud to improve their vocabulary and reading skills.

Participants in the webinar will be able to:

- Facilitate your learner's understanding that words on a page are related to pictures and understand that printed words tell a story.
- Help learners review illustrations in a book and make reasonable guesses about what might happen in the story.
- Assist learners in listening to a simple story, retelling it and talking about it.

Date: November 28, 2018

Time: 6:00 – 7:15 pm

Presenter: Iris Strunc

Iris has been an educator for 25+ years. She has been both a classroom teacher and reading specialist in grades K-8 and currently is a Professor of Reading at Northwest Florida State College. Iris facilitates reading and study skills training and is a strong advocate of using researched based strategies to teach reading comprehension. She has played a role in education as a writer and speaker for events and conferences that focus on reading comprehension and study skills.

Certificate of attendance will be provided after the session.

Please contact Nicole Caban at ncaban@floridaliteracy.org with any questions!

Hosted by Florida's Adult and Family Literacy Resource Center, a program of the [Florida Literacy Coalition](#). This webinar is made possible through the generous support of the [Florida Department of Education, Division of Career and Adult Education](#).
