## Math Solutions

### Results Oriented Strategies for Teaching Math to Adults

Join us and learn about a variety of instructional strategies that can help you to effectively teach math to adult basic education and GED students. This session will combine ideas for the use of manipulatives, print, and web-based resources that can be integrated into your instruction in minutes. New to teaching math? Learn about the most-missed areas of the GED math test which may help you hone-in on the vital lessons that your students need.

**Date:** September 19, 2018

**Time:** 3:00 - 4:15 pm

**Presenter:** Rebecca DeJesus

#### About the Presenter

Rebecca is a self-proclaimed “technology junkie” and in addition to having a decade of experience teaching Math in Adult Education, Rebecca has always been interested in technology in the classroom. Whether the subject be ABE, GED, ESOL, ELA or Math Rebecca loves finding new and fun resources to utilize with students and fellow teachers. She spends her days teaching ABE and GED classes and her nights supporting teachers as a coordinator and she finds any opportunity to help fellow adult general education teachers a true joy.

**Certificate of Attendance is available for this session**

Hosted by Florida's Adult and Family Literacy Resource Center, a program of the Florida Literacy Coalition. This webinar is made possible through the generous support of the [Florida Department of Education, Division of Career and Adult Education](#).
