

## **Article Continued: America's Most Literate Cities Florida Cities Rank in the Middle of the Pack**

---

The study bases their estimation on how cities rate in six different categories:

1. Newspaper circulation
2. Number of bookstores
3. Library resources
4. Periodical publishing
5. Educational attainment
6. Internet resources

Cities that rank high in literacy also tend to be healthier and safer than cities that do not appear on the list, demonstrating the correlation between education, safety, and overall health.
